The *Journal of Human Services* invites scholars, practitioners, professionals, educators, and researchers to contribute to our upcoming special issue titled "Innovation in Human Services: Technology, Techniques, Trends, and Educational Strategies." This issue aims to explore the dynamic intersections of technology, innovative methodologies, emerging trends, and educational approaches within the field of human services. We are seeking original, unpublished manuscripts that address, but are not limited to, the following areas:

Allow all

- Technological Innovations in Human Services: Exploration of AI, machine learning applications, mobile apps, digital platforms, and virtual reality in service delivery.
- Emerging Techniques and Methodologies: New approaches in human service delivery, community engagement, interventions, and educational methodologies.
- Impact of social media on Service Delivery: Analyzing how social media platforms are being utilized in human services for outreach, support, and advocacy.
- Integrative Health Approaches in Human Services: Exploring the integration of traditional and alternative health practices in human services.

- Trends Shaping the Future of Human Services: Including policy changes, demographic shifts, economic factors, and the evolving landscape of educational practices in human services.
- Educational Strategies in Human Services: Innovative teaching methods, curriculum development, online education, experiential learning, and the integration of technology in human services education.
- Inclusive Education Strategies: Techniques for inclusive education and support for students with diverse learning needs in human service programs.
- Digital Divide and Access to Services: Addressing the challenges of the digital divide in accessing human services, especially in historically marginalized and minoritized communities.
- Ethical Considerations in Innovation: Addressing the ethical dilemmas and considerations in applying new technologies, techniques, and educational approaches in human services.

We accept submissions on a rolling basis for our open access publishing. There are no strict deadlines for submission; however, authors are encouraged to submit their manuscripts at their earliest convenience to expedite the review and publication process. Submissions should be sent electronically through the Journal's Scholastica platform. Detailed submission requirements in the "For Authors" section of our website.
